

## Residual Disinfection

Date	Contaminant	MCL	MCLG	Unit	Result	Min	Max	Above AL Repeats	Violates	Likely Sources
2018	Chlorine Residue	4 MRDL		mg/l	1.00	0.95	1.07		No	Water additive(disinfectant) used to control microbiological organisms

**Special Note on Lead:** If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Our system is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking and cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead and drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>.

### *Availability of a Source Water Assessment (SWA)*

A source water assessment (SWA) has been prepared for our system. According to this assessment, our system has been categorized with a high susceptibility risk. More information can be obtained by contacting Mr. Jeff Loveless at (812)354-6835 at your earliest convenience. You can also obtain additional information by contacting Ms. Rebecca Travis of IDEM's Drinking Water Branch at (317) 308-3329.

### *Our Watershed Protection Efforts*

Our water system is working with the community to increase awareness of better waste disposal practices to further protect the sources of our drinking water. We are also working with other agencies and with local watershed groups to educate the community on ways to keep our water safe.

### *Public Involvement Opportunities*

If you have any questions about the contents of this report, please contact Mr. Jeff Loveless at (812)354-6835. Or you can join us at our water board meetings, which are regularly held every first and third Monday of every month at 6:00 p.m. at Petersburg City Hall 04 Main Street, Petersburg, Indiana. We encourage you to participate and to give us your feedback.

### *Please Share This Information*

Large water volume customers (like apartment complexes, hospitals, schools, and/or industries) are encouraged to post extra copies of this report in conspicuous locations or to distribute them to your tenants, residents, patients, students, and/or employees.

### *We Care About You*

We at the Petersburg Water Company work around the clock to provide top quality water to every tap. We ask that all of our customers help us to protect our water resources, which are the heart of our community, our way of life and our children's future. Please call our office at (812)354-8707, if you have any questions.
